

Violin plot showing the distribution of the number of lymph nodes examined (NLE) for three stages: Normal (cyan), CIS+AIS (red), and Primary (grey). The y-axis represents NLE, ranging from 0 to 10. The x-axis represents the Stage. The Normal group shows a wide distribution with a peak around 1. The CIS+AIS group shows a very narrow distribution at 1. The Primary group shows a very narrow distribution at 1. A horizontal line at NLE=1 is labeled 'M.W.W. p ≤ 0.05'.
